Or

Janice Graham-Wilson on 07770 857134

or

Email [EBEI@link-ed.org](mailto:EBEI@link-ed.org)

## **Aims/outcomes**

An opportunity to hear from employers and higher education about the scope of this industry sector and the progression available to learners, together with a tour of the new faculty building.

Recognising that some areas of the CBE Diploma may present challenges the themes of Facilities Management and Sustainability will be addressed.

The day will encourage a holistic approach to the built environment and will, via workshops, identify projects with a multi-unit approach. It is intended that participants actually prepare teaching materials in their workshops which will then be collected and re-produced centrally for distribution to all.

Representatives from the exam boards will be on hand to support us.

Finally, we want to know how you want us to support future developments and initiatives to help you develop your work in this area .

This information can be found electronically on the EBEI  
page of
